

LED LENSER® X21

The masterpiece for special challenges

LED	7 x High End Power LED
Length	395 mm
Weight	1488 g
Luminous flux	1000 lm*
Batteries	4 x D 1,5 V
Energy tank	120 Wh
Burning life	244 h**
Beam distance	500 m*
Technical Data

This masterpiece is another milestone in our company history. The LED LENSER® X21 will cause a sensation because it allows for a whole range of new applications in light engineering. The lamp has a light output of up to 1000 Lumens*. Thanks to the Advanced Focus System (patented*** at home and abroad), the light cone can be adjusted dynamically. You must have held this lamp in your hand to be able to really appreciate it. The LED LENSER® X21 offers a broad, circular low beam as well as a sharply focused searchlight beam. 7 ultra-bright high-performance chips and 7 terminator lenses produce a quality of light that you have never experienced before – a blazing beam that makes even car headlights look pale in comparison. This lamp's lighting range is already legendary. And its impressive appearance radiates power and authority.

Included in delivery: batteries, belt

Item No. 8421

* Luminous flux (lumens) resp. max. beam distance (meters) in the brightest function when switching on with new set of fresh alkaline batteries. Average values, may vary $\pm 15\%$ depending on type of chip and batteries.
** Average hours of burning life as measured in the least energy-consuming mode and until residual luminous flux amounts to 1 lumen.
